

Estimated Fees for Semester 1 2017

Please note:

Fees will vary in accordance to the type of course you are studying, the study mode, whether you enrol in a semester course or a year-long course and how many units you choose to study at one time.

The Department of Training and Workforce Development's [Future Skills](#) website has information about the indicative fee rates if you would like to know more or understand how the fees are calculated.

All training providers of Future Skills WA training will charge the same course fees per hour, set out in the [course fees table](#).

The indicative fees for a course may differ between training providers due to the units included in the course outline. These differences generally result from adapting courses to meet local industry needs. The actual cost of a course will also vary if different electives are chosen by the student. Nominal hours are not hours of training or instruction. They are used to determine course fees and subsidy levels to reflect the cost to deliver quality training.

We may also charge additional resource and other fees relating to individual qualifications.

[Concession rates](#) and [course fee caps](#) may also apply. Fee caps will be shown on the basis that all units are commenced in **2017**.

A student's guarantee to a place in a government funded state priority course is subject to course availability.

Contact:

Course Information on **9780 7070** or email courseinfo@srtafe.wa.edu.au where they will be able to calculate the fees according to your individual circumstances.
