

Asbestos Removal

State ID: A0767P

About this course

Description

This course is for asbestos removal operators who wish to apply for a licence from WorkSafe. Anyone removing more than 10 square metres of asbestos must undertake this training prior to applying for a licence.

This training course will also train personnel of all levels so they can quickly identify likely hazardous materials.

It will include the examination of real life materials to illustrate the appearance of asbestos in a variety of wastes.

Participants will be provided with the skills required to be able to properly supervise, manage and carry out asbestos work involving non-friable (bonded) asbestos-containing material.

This course covers:

- Legislative framework
- Risk management
- Removal and disposal of non friable (bonded) asbestos

Certification

This is an assessable and non accredited course. You will be required to undertake a written assessment. Candidates will be awarded with a Statement of Completion which is required to apply for the licence.

This course cost DOES NOT include the WorkSafe application fee of \$833.70. All participants requiring a Restricted

Asbestos Licence will be required to submit the application to Work Safe, which includes:

- a written application form for a Restricted Asbestos Licence
- an application fee, (\$833.70 as of July 2018)
- evidence of approved training (completion of this course)

A Restricted Asbestos Removal Licence is valid for three years.
