

RII30415 Certificate III in Resource Processing

National ID: RII30415 | State ID: AZF3

About this course

Are you ready to unearth a fine career?

This qualification will provide you with the practical skills and knowledge necessary for employment as a processing technician in a resources processing facility. You will gain the knowledge and skills to operate and monitor equipment including conveyors and value systems in a metalliferous processing plant facility or a coal preparation and treatment plant. You'll learn how to conduct site sampling and testing of samples commonly used in the mine processing industry, and an insight into OHS, the mining industry and the equipment used in plant processing.

Study modes and durations differ depending on your local campus. Please check with your local campus for more information.

Overview

In order to comply with COVID-19 Government directed social distancing guidelines, some courses may include a mix of online and classroom based training delivery, as well as practical and work experience placements.

While the mode of delivery might vary, the content and key learning outcomes of the course will remain the same.

The precise mix of delivery method will vary from course to course. The time, place and method of delivery may also vary across the semester to ensure social distancing and safe training delivery for staff and students during

the COVID-19 pandemic.

South Regional TAFE will provide students with adequate support to work in online environments where necessary.
