

# OSH for Supervisors

State ID: MAA37

## About this course

### Description

This workshop will clarify your responsibilities when implementing occupational health and safety in your workplace. It covers the main legislative requirements and how to navigate your way through these sometimes complex documents. You will also learn how best to implement policies, procedures and programs in line with the legislation and how to keep up to date.

### Who should attend?

Senior and middle managers, supervisors and team leaders who wish to develop their knowledge and skills in OHS and WHS, and anyone responsible for the safety of others, is encouraged to attend.

### Content

- OHS legislation and compliance requirements
- Identifying hazards and assessing and controlling the risks
- Implementing an effective OHS/WHS management system
- The importance of consultation in the workplace
- Implementing OHS training.

### Other information

- Morning and afternoon tea are provided.
- You will need to make your own arrangements for lunch. If you are ordering from the college's café, we recommend you place your order and pay for it before the workshop.

**South  
Regional**

*We're working for  
Western Australia.*
