

Control Evacuation

State ID: MAA71

About this course

Description

This course applies to a person who is required to control the evacuation of personnel from the workplace to a muster point and includes moving mobility/sensory impaired people including persons with either temporary or permanent sensory impairment and casualties, or others who require assistance during an evacuation.

Certification

On successful completion of this course, students will receive a statement of attainment for the following nationally accredited units:

PMAOMIR210 Control Evacuation to Muster Point

Overview

In order to comply with COVID-19 Government directed social distancing guidelines, some courses may include a mix of online and classroom based training delivery, as well as practical and work experience placements.

While the mode of delivery might vary, the content and key learning outcomes of the course will remain the same.

The precise mix of delivery method will vary from course to course. The time, place and method of delivery may also vary across the semester to ensure social distancing and safe training delivery for staff and students during the COVID-19 pandemic.

**South
Regional**

*We're working for
Western Australia.*

South Regional TAFE will provide students with adequate support to work in online environments where necessary.
