

Fire Warden and Fire Suppression Training

State ID: MAB14

About this course

Description

The Fire Warden training is targeted towards the members of your site's Emergency Control (Warden) Team. It is delivered in compliance with Australian Standard AS3745 and your Emergency Response Procedures. The training has a strong focus on life safety and evacuating people in emergency situations.

The training covers the following topics:

- Legislative requirements and Australian Standard AS 3745
- Emergency control organisation structure (ECO)
- ECO Duties and Responsibilities
- Emergency types and their impact
- Raising the alarm
- Fire alarm systems (if installed)
- Managing mobility impaired occupants
- Assembly area/s

Our Fire Suppression Training is targeted towards all staff with a strong focus on safely suppressing a small fire using portable fire equipment including fire extinguishers, hose reels and fire blankets.

The training covers the following topics:

- Fire science and classes of Fire
- Extinguishing agents/types and safe use of fire extinguishers
- Safe use of fire hose reels and fire blankets
- Hands-on practical assessment

Certification

On successful completion of this course, students will receive a statement of attainment for the following nationally accredited units.

- PUAWER004B Respond to Workplace Emergencies
- CPPFES2005A Demonstrate First Attack Firefighting Equipment.
