

Photography - Portraiture, People & Products

State ID: MAB15

About this course

Description

Know your camera basics but still unsure how to progress? Leading on from our popular Digital Photography for Beginners, you will learn more about the skills needed to move past the limitations of auto modes to continue on your creative journey.

Using Portraiture, People and Products as our subject matter, you will learn about lighting, composition and how to use aperture, shutter speed and ISO to capture the important things in life.

This course offers a blend of helpful theory in easy-to-understand terms, clear demonstrations and student practicals so you can put the theory into practice.

This course will cover:

- Portraiture
- Still life photography
- Creative photography concepts
- Understanding light qualities and exposure
- Lighting types
- Using a flash
- Composition

Shooting to a design brief
Defining your style
Working in photoshop

Entry requirements

It is preferred that participants have completed the unit ICPDMT321 Capture a Digital Images (Digital Photography for Beginners) before enrolling in this course. Otherwise, a good working knowledge of your camera in manual mode is required.

Participants will also require:

A DSLR or mirrorless camera with the option of manual mode, capable of manually adjusting shutter speed, aperture and ISO controls is essential for this course

Interchangeable lenses or broad range zoom lens

An off camera flash is essential for this course

Image card(s), USB, camera card reader, charged camera and flash batteries, chargers

Tripod

Be familiar with your camera manual prior to starting the course (most manufacturers have online manuals you can download via the web if necessary)

Knowledge of working with computers

Pen and notepad

Course content includes completing assessment criteria

Certification

On successful completion of this course, students will receive a statement of attainment for the following nationally accredited units:

CUAPHI302 Capture Photographic Images
