

52757WA Certificate IV in Residential Building Drafting

National ID: 52757WA | State ID: YN65

About this course

This qualification will provide you with the practical skills and knowledge to prepare drawings, estimates and plans and liaise with architects, builders and contractors of residential buildings.

You will learn how to present and document building projects using both manual and computer-aided drafting techniques. You will learn about building materials, construction methods and the social and environmental aspects of residential construction projects. Part of this qualification will involve project-based learning where you will work with an industry mentor and apply the skills and knowledge you have learned.

During the course you will cover the theory, underpinning knowledge and practical skills required to produce documentation suitable for gaining a building permit and for the on-site construction of Class 1 and Class 10 Residential Housing projects in accordance with the provisions of Volume 2 of the Building Codes of Australia.

This course is Competitive and further Entrance Requirements may apply.

Study modes and durations differ depending on your local campus. Please check with your local campus for more information.

Overview

In order to comply with COVID-19 Government directed social distancing guidelines, some courses may include a

mix of online and classroom based training delivery, as well as practical and work experience placements.

While the mode of delivery might vary, the content and key learning outcomes of the course will remain the same.

The precise mix of delivery method will vary from course to course. The time, place and method of delivery may also vary across the semester to ensure social distancing and safe training delivery for staff and students during the COVID-19 pandemic.

South Regional TAFE will provide students with adequate support to work in online environments where necessary.
