

## Indicative fees for students commencing a course in 2021

**Please note:**

Fees will vary in accordance to the type of course you are studying, the study mode, whether you enrol in a semester course or a year-long course and how many units you choose to study at one time.

The Department of Training and Workforce Development's Jobs and Skills WA website has information about the indicative fee rates if you would like to know more or understand how the fees are calculated.

All training providers of Jobs and Skills WA training will charge the same course fees per hour, set out in the course fees table.

The indicative fees for a course may differ between training providers due to the units included in the course outline. These differences generally result from adapting courses to meet local industry needs. The actual cost of a course will also vary if different electives are chosen by the student. Nominal hours are not hours of training or instruction. They are used to determine course fees and subsidy levels to reflect the cost to deliver quality training.

We may also charge additional resource and other fees relating to individual qualifications.

Concession rates and course fee caps may also apply.

*Lower fees, local skills*

*Reduction in TAFE fees to benefit local students*

**\* NEW COURSES ADDED TO THE HALF-PRICE FEES LIST**

A significant reduction in fees will make training more affordable for students enrolling in selected South Regional TAFE courses in 2021.

From 1 January 2021 to 31 December 2021, the course fee rate per hour for these qualifications will be reduced by 50 per cent. The maximum annual fee students will pay is capped at \$400 for concession students and youth, and at \*\$1,200 for non-concession students for each course of study.

\* Fee caps will be shown on the basis that all units are commenced in 2020.

A student's guarantee to a place in a government funded state priority course is subject to course availability.
