From the Managing Director

This Aboriginal Training Plan builds on the successes achieved through our 2017-2019 Plan and provides direction on our objectives and strategies for 2020-2022.

The college remains committed and is working to increase the access Aboriginal people have to relevant, appropriate high quality training and reduce or eliminate any barriers to training.

This plan will continue to align with our strategic plan and be subject to annual assessment as part of the business planning process.

Tailored programs and personal support are provided to Aboriginal students during their training through our Aboriginal Programs team. This will continue to increase the likelihood of Aboriginal students completing their studies and gaining the skills they need to apply for jobs or go on to further training or study.

This plan focuses on several key priorities including training our staff to ensure they are culturally competent and aware and ensuring we have Aboriginal representation on key committees.

Relationships are a vital part of this training plan as covered under our Reconciliation Action Plan. The college will continue to work closely with the Aboriginal community to increase the attractiveness and accessibility of our training to Aboriginal people and ensure continued student engagement.
