From the Managing Director

South Regional TAFE is to identify and address the particular needs of Aboriginal people with both tailored programs and personal support during their training.

This priority is critical to ensuring that South Regional TAFE provides support to our entire community.

The college’s Aboriginal Training Strategy details the college’s objectives and the approaches. This strategy will increase Aboriginal participation and completions in training, leading to employment outcomes and economic independence.

The document is aligned with the Strategic Plan. It is an integral part of the college’s planning process and it is subject to annual assessment.
